Public Comment On NAFDC Conference

NAFDC has decided to cancel its conference for 1993. This decision is based on two important issues:

*Legislation recently passed by a majority of Colorado voters which limits the protection against discrimination for people based on their sexual orientation.

*A national movement calling for a boycott of Colorado businesses and products because of this new law.

NAFDC is a national organization representing family child care providers in every state. NAFDC does not want to put our members and supporters in a position that requires them to chose between an important issue of conscience and a conference that supports their efforts to improve quality care for children. We must respect the need for providers to make this decision without hindering their involvement in family child care issues and activities.

NAFDC plans to schedule another conference at the next earliest date.

Please feel free to address any questions or comments to NAFDC, Attention: Linda Geigle, President, 1331-A Pennsylvania Ave., NW, Suite 348, Washington, D.C. 20004.
